

# **PVC & CPVC UTILITY BALL VALVES**

UT-2-0306

## **Economy, Utility and Quality**

A high quality, economical quarter-turn shutoff valve designed for irrigation, pool and spa, and general purpose applications. IPS sizes 1/2" - 2" available in PVC White, PVC Gray or CPVC with socket or threaded end connectors. Sizes 3" - 4" available in PVC White with socket or threaded end connectors. 6" size available in PVC White with socket end connectors and highefficiency lever style handle for easier operation.

#### **PVC White, PVC Gray or CPVC Construction**

Excellent companion for PVC systems such as lawn sprinklers, pools, spas, water gardens and other light-duty applications.

#### **One-Piece Sealed Unit**

Never requires adjustment.

#### **PTFE/HDPE Ball Seats**

Smooth operating PTFE/HDPE floating seat design reduces wear.

#### **EPDM O-ring Seals**

High grade, abrasion resistant EPDM elastomer O-rings.

#### **Full Schedule 80 Bore**

In full open position, full bore virtually eliminates pressure drop, providing optimum flow.

#### Sample Engineering Specifications

All thermoplastic ball valves shall be Utility sealed unit type constructed from PVC Type I Cell Classification 12454 or CPVC Type IV Cell Classification 23447. All O-rings shall be EPDM. All valves shall have Safe-T-Shear<sup>®</sup> stem and double stop Polypropylene handle. All valves shall be listed by NSF<sub>®</sub> for use in potable water service. All valves shall be pressure rated at 150 psi for water at 73°F, as manufactured by Spears<sup>®</sup> Manufacturing Company.

#### **High Impact Polypropylene Handle**

Features double stop engagement.

#### Safe-T-Shear® Stem

Developed to help prevent line fluids from leaking out in the event of ball valve stem damage. Engineered for high strength, the stem incorporates a special shear point to control accidental breakage. Over torquing breaks occur above the stem O-ring leaving the seal intact until replacement can be made.

#### **150 psi Pressure Rating**

Maximum Internal Pressure at 73°F for a variety of applications.

#### Certified by NSF® for Potable Water

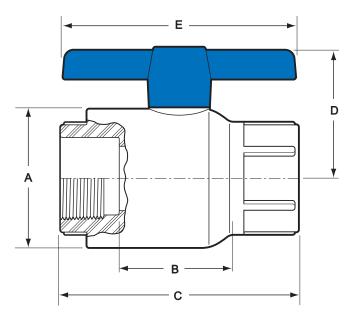

All Utility Ball Valves are Certified by NSF International for potable water use.

1: Valve Lay Length

2: Gallons per minute at 1 psi pressure drop. Values calculated from valve laying length, based on derivative of Hazen-Williams equation with surface roughness factor of C=150.

3: 6" valve has lever handle, dimension is from valve stem centerline (not illustrated)

#### **Temperature Pressure Rating**

System Operating		73	100	110	120	130	140	150	160	170	180	190
Temperature °F		(23)	(38)	(43)	(49)	(54)	(60)	(66)	(71)	(77)	(82)	(88)
