

MAKING A SPLASH WITH SPACE-SAVING VERSATILITY.
INTRODUCING VERTICAL MULTI-STAGE PUMPS

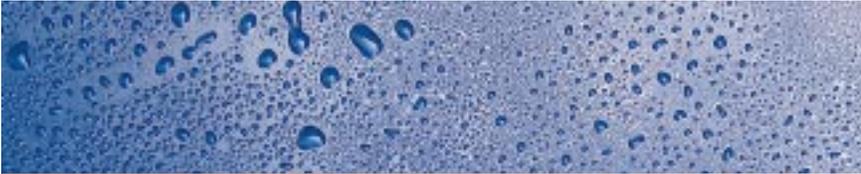

RAISING THE STANDARDS OF VALUE, PERFORMANCE AND DURABILITY.

BERKELEY VERTICAL MULTI-STAGE PUMPS STAND TALL IN DEMANDING HIGH-PRESSURE APPLICATIONS.

Space limitations are no limits to high-pressure performance with a Berkeley. The vertical design allows for easy installation in new as well as retrofit systems. Engineered for high efficiency, Berkeley vertical pumps bring lower operating costs and less downtime for routine maintenance or repairs.

With a full line of power and performance to choose from, every Berkeley multi-stage pump comes complete with self-adjusting mechanical seals for maintenance-free dependability and ratings of 250° F and 350 psi for true application versatility. Stainless-steel impellers, chambers, shaft and guide vanes assure long-lasting efficiency and quiet operation.

For any high-pressure application where there is no room for less than the best in dependable performance, a Berkeley vertical multi-stage pump is the perfect fit.

TEFC or ODP motor, rugged direct coupling.

Multiple seal options for application versatility.

Easy access to coupling via snap-in-place coupling guards.

Zinc-plated hardware for corrosion resistance.

Teflon® neck-rings to reduce re-circulation and improve efficiency.

Flanged or NPT connection options.

High-quality stainless steel components for long-life performance.

Extra-durable shaft seal requires no maintenance.

RAISING THE STANDARDS OF VALUE, PERFORMANCE AND DURABILITY.

New or Retrofit Applications – pressure boosting, boiler feed, cooling towers, water distribution, water supply, water treatment, car-washing and wash-down, process water supply, unlimited original-equipment applications, where space and high-pressure performance is at a

Time-saving repairs are assured with rebuild kits that include pump shaft, impellers and hardware all pre-assembled and ready to install.

SPECIFICATIONS AND PERFORMANCE. VERTICAL MULTI-STAGE PUMPS

Models	HP Range	Suction Discharge Size	GPM
BVM2	1/2 – 5	1-1/4"	1.2 – 20
BVM4	1/2 – 5	1-1/4"	3 – 40
BVM8	3/4 – 15	2"	5.3 – 65
BVM16	5 – 25	2"	8.5 – 115

All BVM models are made with Class 30 cast iron and 304 stainless steel. Each unit features zinc-plated stay bolts, nuts and washers for corrosion resistance and improved pump durability.

VERTICAL MULTI-STAGE PERFORMANCE

The Berkeley difference – Everything we do shows up in the way Berkeley pump users look at us: with confidence. It's a confidence that goes from ordering to delivery to installation, on through years of trouble-free performance. It's a confidence that allows our customers to cure common pump worries and troubles with one simple phrase: relax, it's a Berkeley.

BEC: a Berkeley advantage – Berkeley's Electronic Catalog (BEC) puts powerful pump specification, application and installation software right at our customer's fingertips 24 hours a day, every day. For more information about BEC, vertical multi-stage or any other Berkeley pump, contact your Berkeley distributor or a Berkeley service representative at: **1-888-BERKELEY.**
