Parts and Components

Body Style	Production Years
S Pedestal Series	January, 2003
S Wall Series	
GFC Series (includes pre-1/03 Genesis and VSX controllers)	January, 1998 – January, 2003
GWC Series (includes pre-1/03 Genesis and VSX controllers)	

How to identify (in addition to dates of production):

It is important to identify the body style of a controller before identifying internal electronic components. Locate your controller from the descriptions and illustrations here.

Current "S" series enclosures are wider than their depth (rectangular base), with 10-station output boards. The wall mount versions include a door lock-open bracket.

GFC-style pedestals have a roughly square base, with 10-station output boards (may say "Legacy" or Hunter).

GF controllers are also square, but have larger multi-station output boards (1 or 2 boards max, an upper board and often a lower, 51 stations max) and wider facepack assemblies (may say "Buckner" or "Legacy").

Radio Modules	Status
---------------	--------

Controllers, central interfaces, and other devices have used at least 5 different radio modules in their evolution. Some older units may be repairable, but are no longer available as replacements. Upgrading to RADIO2KT requires upgrading radio communications board at the same time.

Modules	Description	Field Controller	Central
"Old Maxon" (also known as the "Humpback Maxon")	Crystal-Controlled DM0530 Radio Modem (discontinued)	No longer available; upgrade to GFKTR or GFCKTR	No longer available; upgrade to GCRCOMKT
"Flat Maxon"	Crystal-Controlled DM0530 Radio Modem for Maintenance Radio (discontinued)	n/a	Replace with GMRR or GMRHW
"Tekk"	Crystal-Controlled replacement for DM0530 - no longer used - some replacements available	No longer available; upgrade to GFKTR or GFCKTR	As central radio, use GCRCOMKT; if used as MR, use GMRR/GMRHW
"Mini-Tekk"	Rare, smaller unit in older GMR setups – no longer available	n/a	No replacement; update central (contact factory)
RADIO2KT	Current synthesized, narrowband radio module, in use since 1998	Current product	Current product
