America's Premium Evaporative Cooler

We offer choices in our line of coolers.
You're assured of getting the exact
cooling requirements for your job

*We have one of the largest CFM ranges
from as little as 100 to as much as 17,000.

*Polybond Coating on the whole system
protects against rusting.

*Essick's evaporative coolers circulate
clean, fresh air.

*Save money when using an evaporative
cooler vs. an air conditioner.

Customize your Heating!

REZNOR®

A complete line of heating, makeup air and ventilating systems, utilizing gas, hot water/steam, or electric heat sources.

Technological development and innovation have been the hallmark of Reznor through the years.

The development of the forced air gas unit heater, the modular Thermocore heat exchanger, and the high-efficiency sealed-draft Venturion unit have kept Reznor at the forefront of technological advances in commercial and industrial gas heating.

Committed to Smarter Designed Fireplaces

- ♦ Versatile Installation
- ♦ Maximum Efficiency
- ♦ Realistic Logs

CONTRACTORS HVAC SUPPLY DEALER PRICE CATALOG

IMPORTANT NOTES FOR YOUR GUIDANCE

1. Product catalogs will be issued only to qualified HVACR customers. New issues will be printed and distributed for Spring
And Fall each year. The first copy of each printing will be supplied at no cost to our qualified customers.
2. Prices are subject to stock on hand. Using our best forecasts, we will try to purchase enough inventory to serve your needs.
Please call for current prices.
3. We sell wholesale to licensed HVAC and Sheet Metal Contractors only. In order to purchase from us at prices shown you must be qualified. See separate sales policy for more details.
4. In some cases, prices do not reflect quantity discounts. Please ask your Contractors HVAC Sales Representative for quantity pricing on selected items.
5. **We invite your careful review of this entire product catalog.** If you find errors, please report them to us so we can make necessary changes on future printings. To assure proper computer entry of your orders, please always use the Stock Number shown when placing your orders by phone or fax.
6. Prices are FOB our Warehouse. Prices are subject to our regular terms of sale, 2% 10th Prox., Net 30th on approved credit. See "Credit and terms of sales policy" included in this price list for additional details.
7. Totaline Misc. Repair Parts are not listed in this product catalog. Separate Totaline catalogs and price lists are available on request. Please call our parts department for information about other parts you need.
8. Other Stock and Non-Stock Items. We have tried to include most stock items in this new catalog. Many additional products which we do not stock are available on a special order basis. Please call us for information on anything you need which is not listed.

Other locations. We have a branch in Ogden, Utah and are affiliated with Contractors Heating/Cooling Supply in Orem, and St. George Utah. If you are doing jobs in those areas and have an account with us you may purchase supplies from them. Call us for a purchase order. We will then authorize the purchase from them and bill you for your order on your regular account with us. Prices may vary, so please inquire as to pricing when placing such orders.

OUR MISSION STATEMENT

It is the goal of every employee at Contractors HVAC Supply, Inc. to provide the very highest level of service possible to all customers.

Our commitment is to greet each person with a smile, and extend to everyone who enters our facility, prompt, courteous, and efficient service,

We pledge to handle only the finest quality equipment supplies and parts. We further pledge to offer them at fair prices, and to fulfill our obligation of continually training staff and customers in the latest installation and service techniques consistent with manufacturer instructions and local codes.

In this way, we hope to broaden our markets, increase our sales, and prosper along with our good customer, knowing we have done our very best.

CONTRACTORS HVAC SUPPLY, INC.-Since 1982 **“SUPERIOR PRODUCTS AND SERVICE IS OUR TRADITION”**

Look at just a few of the reasons to make us your #1 supplier.

- Quality equipment, supplies and accessories from leading manufacturers.
- Dependable employees who care about you and will take care of your needs.
- Large inventory of HVAC products to make this your one stop shop
- Knowledgeable and friendly inside-outside sales and service organization
- Free delivery along the Wasatch Front and into Uintah Basin areas
- Toll free phone ordering service for long distance customers
- Trip incentive earnings program
- Open account credit terms for qualified customers
- Plan takeoff and bid-services. Training and technical assistance
- Complete residential as well as commercial offering
- Advertising and promotional programs tailored to each customers needs
- Literature, manufacturer specification and PDS sheets.

SALES POLICY WHOLESALE ONLY

CONTRACTOS HVAC SUPPLY INC

...SELLS "WHOLESALE ONLY" TO LICENSED CONTRACTORS
AND OTHER QUALIFIED ACCOUNTS.

THE SALE OF HEATING AND AIR CONDITIONING AND REFRIGERATION
EQUIPMENT, WHICH OFTEN REQUIRES FACTORY TRAINING AND
CERTIFICATION, IS OFFERED ONLY TO CONTRACTORS LICENSED IN THOSE
TRADES. PROOF OF PROPER LICENCE MAY BE REQUIRED.

Our only business is wholesale heating and air conditioning. Our primary customer base consists mainly of properly licensed heating, air conditioning, refrigeration and sheet metal contractors who have been trained to sell, install and service the equipment, supplies and parts we offer for sale. It is this group of "dealers" we wish to protect by aggressively monitoring the sale of equipment and some other merchandise and to eliminate the sale of these products to those who are either not licensed, not qualified or not trained.

In today's business world, we are all mindful of legal as well as health and safety issues for those who distribute products, install and/or service them, or who as consumers purchase them. We therefore believe that it is in the best interest of all concerned that we reinforce our policy and actually embrace it in the following ways:

1. "Cash sale" purchases for heating, air conditioning, and refrigeration equipment will be eliminated. Any licensed and properly trained heating contractor not credit worthy for an "open account" or who simply would rather pay cash to buy equipment ordered, must be set up as a "cash account" in his business name. This will provide us with as address, phone number, social security number or federal I.D. numbers, other officer's or partner's names, etc. It will also allow us to verify licenses listed before making the sale.
2. Additionally, -in order to ensure proper compliance with our policy, we will no longer allow "cash sales" of Heating and Air Conditioning Equipment to be purchased through "open" credit accounts of our other contractor customers. Any contractor who desires to let someone else purchase on his account in such a manner must make arrangements for payment with that person directly. We will provide the equipment ordered only if you have authorized the purchase by telephone, in writing on your letterhead or on your approved purchase order form. This places the responsibility for selling, installing, servicing and handling warranty for any equipment sold on that account (along with collecting bad checks) with the owner of the account-not with us.

3. Electrical components, including gas valves, thermostats, relays, fan motors, contactors, compressors, b-vent, gas cocks, flexible gas line connectors, and the like will not be sold to those who do not hold proper licenses to install them due to legal and safety concerns mentioned-as well as to assure that as much of this type product as possible is being sold through our regular customer base.

Please keep in mind also that Bryant brand products are exclusively available for Bryant Dealers who have qualified to purchase this brand through purchase volume and advertising/promotional commitments. Within the group of Bryant products, some models or types of equipment such as R410A Puron units are available only to those Bryant dealers who have been certified through proper training to install them. They are not available to non-Bryant dealers.

We believe that by taking these additional steps to enforce our stated policy, we can eliminate many of the problems we have experienced in the past. We solicit your patience, understanding, and support in helping us to improve customer service to all whom we serve. Thank you.

Bryan Johnson, President
Clint Shepherd, V.P.
Bryan Smith, Sales Mgr.

CREDIT AND TERMS OF SALE POLICY

This policy will serve as the basis upon which we solicit your credit business. Please carefully review this memo to become familiar with the important information contained herein.

1. CREDIT

We appreciate the many fine accounts we serve; those customers who properly value credit and respect it by paying their bill when due. To them, we know that a firm credit policy is helpful, as under such a policy much unfair competition may be eliminated. Likewise, we welcome new accounts and will extend regular credit terms to them upon proof of credit worthiness through personal and trade references. **For new accounts** a credit application is available from our office. Before any purchases are made on credit, the application must be completely filled out, **signed by the owners and/or officers**, submitted for our investigation and approved by our credit department. Processing can range from a few hours to a few days. Until credit is approved, new prospective accounts may pay for purchases using cash, approved check, or Visa/MasterCard.

When Contractors HVAC Supply, Inc. grants open account terms to customers, all decisions with respect to the extension or continuation of credit shall be at the sole discretion of our credit department.

2. TERMS OF SALE

Regular Terms-2% 10th Prox. (Becomes NET after 15th.) Regular Terms shall apply to all sales to our trade customers, except in the case of special low margin quotes, buyouts from other suppliers, sales tax, freight charges, advertising, literature, and service charges which carry NET of NET-NIX terms.

NET-10th Prox, No Cash Discount

3. INVOICING AND MONTHLY STATEMENTS

We now fax invoices, rather than mail them, to all customers with a fax machine, unless otherwise notified. We feel this is a big advantage to you the customer since you will no longer have to wait for the mail system and you will receive your invoices on a daily basis. For those customers who do not have a fax machine or choose not to use this method we will continue to mail your invoices to you on a weekly basis. We close our books following the last business day of each month. Statements are mailed one or two days following the month-end closing. Statements will reflect new purchases and payments made during the month, service charges added, credits issued and will show your new balance and an aging of the total. The total cash discount available for payment by the 10th of the month will also be shown.

Discounts are earned only when payments are made by the 10th of the month following purchase. To allow for occasional slow mail, we permit the discount so long as the envelope is postmarked by the 10th and arrives in our office no later than the 15th. **Unearned discounts taken after the 15th will be charged back to the customers account and remain until paid.**

No cash discount will be given on new purchases when a past due balance exists on the account. Invoices become past due if not paid by the last day of the month following purchases. Accounts which have balances appearing in the 60 day column or beyond are subject to **COD** terms until paid. Today's economic conditions and high costs of borrowing money prevent us from granting credit accommodations beyond that point. Due to processing fees charged by Visa/MasterCard, no cash discount will be given on individual purchases or payment of account balances when using this form of payment.

4. PAYMENTS ON ACCOUNT AND CASH SALE PURCHASES

Unless otherwise directed, payments received on account will first be applied to the service charges owing, then to the oldest amounts due. Money for all cash or COD purchases will be used to clear the invoice for that purchase, not past due amounts. Any extra paid will go to pay service charges first and then to pay oldest invoices.

5. SERVICE CHARGES

Our Statements for the month following the most recent purchases will show a service charge of 1-1/2% per month on any past due amounts. This equals 18% per annum added to the past due amount.

Example:

	July Purchases
<u>Due, Less Discount.....</u>	<u>August 10th</u>
<u>Due, Net.....</u>	<u>August 16th</u>
<u>Past Due.....</u>	<u>August 30th</u>
<u>Account placed on COD.....</u>	<u>October 1st</u>

Our Service Policy

Due to our ever increasing demands on human resources and the potential liability of not being licensed and insured to perform service work, we have found it necessary to review and update our current “**Service Policy**”

As a wholesaler, our post sale and service responsibility to the dealer is product support, training and technical assistance.

We are always happy to provide you technical assistance over the phone or in person. However, if you want us to make a job site visit, the following guidelines must be followed:

- A. The contractor/service tech must make every effort reasonably possible to fix the problem with their own resources.
- B. The contractor/service tech must have the tools required to assess the problem and make the repairs necessary.
- C. The contractor/service tech should consult with our Service Dept. and attempt to resolve the problem over the phone.
- D. The contractor/service tech must accomplish the check list and/or recommendations made by our Service Manager or their assigned salesman.
- E. For a field service call, it must be scheduled 1 to 2 days in advance.

Contractors HVAC Supply will gladly make every effort to assist our dealers in resolving any problems that they ask for assistance on, providing they have followed the “**Service Policy**” guidelines.

Contractors HVAC Supply also will provide dealer training, as well as factory training at the dealers request and has an extensive video lending library available to anyone who wants to take advantage of it.

We believe that the road to a successful business and happy, repeat customers comes through continued product and service training. We invite you to take advantage of these invaluable opportunities.

Thank you for your support!!

Jim Grow
Service Manager/Customer Assurance

COOLER ACCESSORIES & PARTS

DIAL SELECTASTAT II EVAPORATIVE COOLER THERMOSTAT

- *For use with 1/3 to 3/4 H.P. cooler motors
- *Bimetallic sensing element
- *Auto start and stop for temperature control.
- *Rated 16 amps at 115 Volts AC.
- *Includes separate control of high and low speed blower motor and control of pump
- *Includes thermostat, motor switch, pump switch, leads and installation wiring diagram.
- *Installs easily with 4 lead wires and ground terminal. Designed for installation in single gang or double gang electrical boxes (not included) *Accuracy is $\pm 3^{\circ}\text{F}$ *UL listed

Stock #	Product	Description
2947	SELECTASTAT	115V Thermostat for 2 speed motors

COOLER CONTROLLER Combination Wall Switch & Thermostat

- *For use with cooler systems up to 1 HP in size
- *Easy single touch temperature adjustment
- *Constant room temperature displayed
- *LCD Digital temperature read out with electronic temperature sensor circuitry
- *2 minute blower start delay when using the pump feature for proper pad wetting before blower engages
- *Installs in standard depth 2x4 single gang electrical box.

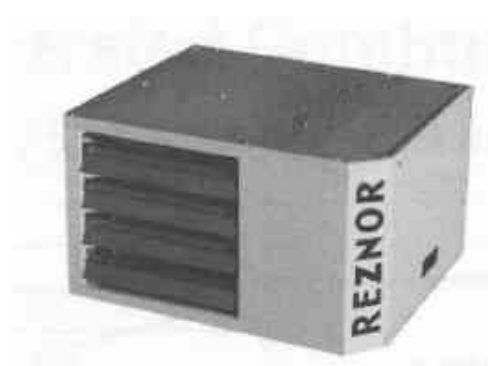

Stock #	Description	Color
45177	Cooler Controller	White

REZNOR UNIT HEATERS

"MODEL UDAP" POWER VENTED LOW STATIC UNIT HEATER

- *Direct Ignition with 100% shutoff
- *Integrated CB with Diagnostic Indicator lights
- *Transformer for 24-volt controls
- *Serpentine titanium stabilized heat exchanger design
- *115/1/60 Supply voltage
- *Single stage gas valve with external gas service connection
- *Up to 83% Thermal efficiency
- *4-Point and 2-Point suspension
- *Sizes 30-125 for residential and 30/400 for commercial
- *50-60 degree temperature rise range
- *External terminal strip connector for 24-volt wiring
- *Easy DIP selectable fan on and off time delay

HONEYWELL THERMOSTATS

BEAUTY RING (USED WITH T87F THERMOSTATS)

Stock #	Product	Description	Color
40523	202687A	5 1/2" dia. plate covers old stat mounting	White

T810D 24 VOLT HEAT ONLY THERMOSTAT

*Provides spat control of 24 VAC res. heating, cooling, or millivolt heating system

*Coiled bimetal element operates snap-acting switch

Stock #	Product	Staging	Conductors Required	Programmable	Color	Temp. Range
3506	T810D1003	1 Heat	5	No	Beige	45°/85°

T822D 24 VOLT HEATING ONLY THERMOSTAT

*Universal low voltage heating replacement thermostat

*Coiled bimetal element operates SPST mercury switch

*Easy, Straight-in wiring capability

Stock #	Product	Terminals	Temp Range	Heat Anticipator	Color
39079	T822D2550	R,W	55°/95°	0.18 to 1.0A	White

T834 24 VOLT HEATING/COOLING THERMOSTAT

*A low voltage thermostat for heating/cooling applications

*Coiled bimetal element operates a mercury switch

*System Switching: HEAT/OFF/COOL

*Staging: 1 Heat, 1 Cool

Stock #	Product	Terminals	Color	Mounting
66167	T834C2499	R,G,W,Y,	White	Vertical

Honeywell

T410 ELECTRIC HEAT LINE VOLT THERMOSTAT

*Replaces any two-wire line wall-mounted electric heat thermostat

*Easy to install; 6 in. color-coded leads

*System Switching: SPST

*Electrical Rating (non-inductive resistive rating): 22A at 120/208/240 Vac;

*19A at 277 Vac

*Bimetal, snap-acting switch

*Dimensions: 4 1/2" H x 2 3/4" D

Stock #	Product	Electrical Rating	Temp Range	Color
39383	T410A1013	Resistive	40°/80°	White

T87F 24 VOLT ROUND WALL THERMOSTATS

*Available with wall-plate for 24V heating, cooling or heating/cooling systems with remote switching

*Temperature range: 40°F to 90°F

*Dust free mercury switches silently respond to minute temperature variations

*Replaces most heat or heat/cool 24 volt thermostats

Stock #	Product	Staging	Terminals	Color
23291	T87F3855	1HT/1CL	R,W	White

T86 CHRONOTHERM III PROGRAMMABLE ELECTROINC FUELSAVER T-STATS

*Adaptive Intelligent Recovery assures desired temperature

*Battery backup maintains clock and memory during power failures

*Includes batteries and base with terminals and switches

*For heating or heating/cooling systems, 15-30 VAC

*Operating ambient temperature range: 40° F to 110°F

*Digital clock indicates time-of-day, day-of-week, current program period, room temp., program time and set points

*5-1-1 day programming allows selection of different daily schedules for weekdays, Sat., and Sun.

*Shape of terminal barrier permits straight or conventional wraparound wiring connections

*Staging: 1 Heat, 1 Cool

*Fan: On, Auto

*System Switch: HEAT/OFF/COOL

*Set point range: 45°F to 88° F

Stock #	Product	Terminals	LED*	Color
23293	T8602C109 5	W,G,R,RC, Y,O,B	None	White

*Stands for Light Emitting Diodes

MISCELLANEOUS THERMOSTATS

WHITE ROGERS COMFORT-SET II DIGITAL THERMOSTATS

*Automatic heat/cool changeover allows you to set the system switch in one position all year
(Available on 1F90-71 only)

*Four separate time/temp. setting in all four programming periods

*System: HEAT/OFF/COOL; Fan: ON-AUTO

*EMR (Energy Management Recovery) for an early start temperature recovery in heating or cooling

*Backlit display-energizes whenever the keypad or temperature buttons are pressed

*Battery backup capability-supplied with three "AA" Eveready alkaline batteries

Stock #	Product	Programmable	Temp. Range	Automatic Changover	Color
56931	1F90W-051	5-day, 2-day	40/99	Yes	White

TEMPORARY THERMOSTATS

*Low cost

*Non-adjustable

*Temporary Construction Thermostats

Stock #	Product	Description	Temp. Setting
51287	TS-65	24 volt temp-stat	65°F
51288	TS-70	24 volt temp-stat	70°F

Dormont
MANUFACTURING COMPANY®

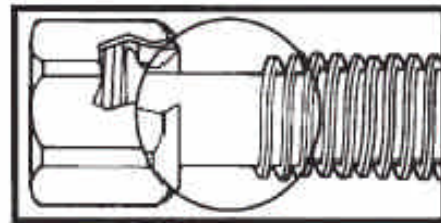

TOTALINE

Dormont...The Superior Stainless Steel Connector

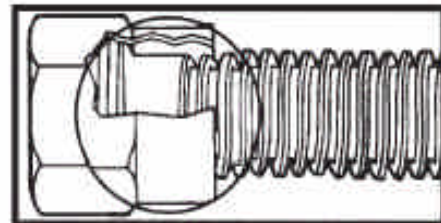

Dormont Supr-Safe Stainless Steel Connectors are trusted worldwide for greater flexibility, superior appearance and outstanding performance. Dormont's proprietary manufacturing process and exclusive no-neck design make Supr-Safe® connectors the safest, longest lasting connectors.

Exclusive Dormont No-Neck Design™

With ordinary connectors, the tubing's straight neck enters the nut and after being subjected to repeated flexing can develop stress cracks that can result in a gas leak. The Supr-Safe No-Neck® design eliminates this danger because the first few tubing corrugations are enclosed within the nut. Result: increased tubing flexibility and longer normal service life.

Ordinary Connector Neck

Dormont No-Neck™ Construction

OmegaFlex®
 Manufacturer of Flexible Metal
 Hose and Braid Products

Lower Install Time!

Faster installation time -- saves up to 75% of the time required for a black iron pipe installation.

Less time on-site for more production per crew.

Pipe Flexibility!

Pipe that bends and conforms by hand.

No joints around obstacles or for long runs

No Welding!

No Pipe-Threading!

No oil or mess on-site

Reduced risk for injuries

An AGA Listed And Tested Product

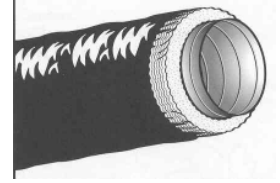

INSULATED/NON-INSULATED DUCT PRODUCTS
