

PRIME-IT™

Christy's™

PRODUCT SPECIFICATIONS

PRODUCT TYPE: Synthetic Rubber Based Adhesive

DESCRIPTION: Prime-It™ is a medium bodied, rubber cement like yellow synthetic rubber based adhesive, formulated for bonding a variety of porous and non-porous surfaces. It is ideally suited for bonding pipewrap to pipe. It is also suitable for bonding drain pipe, foams, fabrics, carpet, metals, wood, plastics and various other materials. Prime-It™ is fast drying, while still allowing good "open" time. Prime-It™ has a high solid content, making it ideally suited for application on pitted or rough surface piping.

TECHNICAL:

Viscosity:	350 cps @ 77°F
Color:	Yellow
Solids:	40%
Base:	Compounded Synthetic Elastomer

SPECIFICATIONS & INDUSTRY LISTINGS:

Prime-It™ is listed by the International Association of Plumbing and Mechanical Officials (IAPMO) and carries the  shield.

SPECIAL CONSIDERATIONS: For safety and health precautions please consult our Material Safety Data Sheet on this product. Prime-It is flammable and should be handled accordingly.

PACKAGING & HANDLING: Prime-It™ is available in resealable Pint, Quart and Gallon containers. When stored properly, Prime-It has a minimum 1 year shelf-life in an unopened container. Always seal the can tightly between uses, to prevent the adhesive from becoming thickened, stringy or jelled. If the adhesive becomes thickened, stringy or jelled, dispose of properly, it cannot be "re-activated" or thinned.
