Pro 5 Weed Barrier®

over 5 oz. woven
polypropylene fabric

Pro 5 Weed Barrier is
designed for the
professional who wants
the best in a finished project.
The most effective fabric
weed control product on
the market today.

Fiber reinforced needle
punch process offers the
most durable weed control
fabric in the industry.

Almost 100% opaque to
prevent photosynthesis
and seed germination.

5 year guarantee
against UV deterioration.

Colored stripes on top,
spaced 12" apart, for easy
plant alignment.

Conserves soil moisture.

Increases growth and
production in plants.

Available in rolls of
3', 4', 5', 6', 8' and 12'
wide by 250' long.

Anchoring Pins

The permanent and professional way to anchor
all of our fabric. These steel pins are angled
on the tips for faster and easier installation.
See page 15 for more detailed information on this
product and other DeWitt Accessory products.

Weed Protection Products

III. Types and Characteristics of DeWitt Fabrics:

Most DeWitt Fabrics are made from 100% Virgin Polypropylene. This recyclable material is a by-product of gasoline production. Our plastic products are made from recycled plastic that we convert at our recycling facility here in Sikeston, MO. All DeWitt products are, and will continue to be, manufactured using environmentally sound practices, and we show our confidence in our quality by carrying the only 10 year guarantee in the industry.

PRO5 WEED BARRIER:

Designed for the professional, this is the most effective fabric weed control product on the market today. Pro5 is a 5oz. per square yard polypropylene that is woven into a substrate for added strength, then needlepunched to aid in permeability and capillary action. Pro5 is able to exchange water at a rate of 12 gallons per minute per square foot. It is almost 100% opaque to prevent weed seed germination, and striped every 12" for easy plant alignment. It is also U.V. treated to prevent breakdown in the sun, and carries a 10 year guarantee.

<u>Fabric Weight:</u>	4.6oz _(minimum)	<u>Perm Rate:</u>	12gal/min/sf
<u>Burst:</u>	225psi	<u>Opacity:</u>	99.9% blocked
<u>Puncture:</u>	60lbs	<u>Thickness:</u>	28mils
<u>Tensile Strength:</u>	100x60 (lbs)	<u>U.V. Resist.:</u>	>70% after
		<u>Strength Reten.:</u>	2500 hrs

Pro5 is available in bulk rolls only. Rolls are 250' long and 3', 4', 5', 6', 8', and 12' wide.
