

DOSMATIC

ELECTRIC CHEMICAL INJECTOR • ISO 9001:2000 Registered

The Professional's Choice!™

NEW!!

Available in Single and Dual Injection!

The **DOSELEC** is designed for applications requiring injection of either one or two chemicals into large water flow irrigation systems. **Golf courses, tree farms, vegetable fields, and field crop production** are typical applications.

Users have the freedom to **inject two solutions separately** and at two different rates and at greater accuracy than two separate injectors. Innovative design combines Dosmatic's proven injector technology to a power unit, **providing low maintenance and easy service!**

Features Include:

- * Electric Powered (110 or 220 VAC, 50/60 Hz)
- * Indoor/Outdoor Use
- * Accurate Single or Dual Injection
- * Low Maintenance
- * Easy Service

Benefits Include:

- * Wide Range of Chemical Uses
- * Independently Injects Two Chemicals Simultaneously at Different Rates
- * Easy to Install
- * Simple to Operate
- * Economical
- * No Pressure Loss
