

## Valve Guard™ For Pressure Vacuum Breakers

Now - Engineered Enclosures are available specifically for pressure vacuum breakers with telescoping design for varied valve height. Simply build your enclosure to the desired height by adding standard size expansion collars between the base and the cover. Typical Hot Box features apply:

- Durable Fiberglass Construction
- U. V. Resistant Gel Coast Surface
- Easy Installation
- Foam Insulation For Strength
- Freeze Protection (Limited without Heat)
- Manufactured by Industry Leader
