ent service tools and auxiliary items for irrigation systems that save time and make jobs easier

## Accu-Set™ Pressure Regulator

With the added option of Accu-Set on a Hunter **ICV** or Large **PGV** valve, you can reliably adjust and regulate pressures anywhere from 20 to 100 PSI, and be certain the setting you select will never waiver. Accu-Set can be field installed to any **ICV** valve in seconds, without tools. Plus, the best part is the ease of setting the unit – just turn to the pressure you want on the easy-reading dial. No other pressure regulating device is as simple to use (just one more reason to choose Hunter).

### MODELS

Accuset - Accu-Set Pressure Regulator

## PRO-FLEX Tubing

### MODELS

PRO-FLEX-100 - 100' roll

### GENERAL FEATURES

- Engineered to resist kinking
- Inside diameter: .49"
- Operating pressure: up to 80 PSI
- Virgin linear low-density polyethylene material
- Meets ASTM D2104, D2239, D2737

## Hunter Flex

### MODELS

HFT-100 - 100'

### GENERAL FEATURES

- Inside diameter
- Operating pressure
- Virgin linear low-density polyethylene material
- Meets ASTM D2104, D2239, D2737

## Hunter Spiral Barb Elbows

### MODELS

- HSBE-050 - 1/2" male NPT x spiral barb elbow
- HSBE-075 - 3/4" male NPT x spiral barb elbow

### GENERAL FEATURES

## Hand Pump

Used for emptying water from valve boxes and sprinkler bodies. Part Number: 460302

## T Handle Tool

Nozzle insertic for most rotor

- For use with PRO-FLEX Tubing (PRO-FLEX-100) and Hunter Flexible Tubing (HFT-100)
- Acetel material for sharp barbs
- Operating pressure up to 80 PSI (5.5 bars; 551 kPa)

**Rotor Pressure Gauge**

Fits nozzle orifice on PGP Part Number: 129900

**Rotor Pitot Gauge**

Unique "stay dry" design adjusts to fit all rotors.  
Part Number: 280100

**Nozzle Inse**

For easy field  
except PGJ, I-

**Shrub Rotor Staking Kit**

For easy staking of PGS, I-10 and other rotors.  
Reduces liability. Part Number: 463551

**Sub-Surface Stabilizer Flange**

For I-25/I-31 Plus and I-40/I-41 Group  
sprinklers when additional stabilization is  
required. Part Number: 222700
