KING SAFETY SEALED

APPLICATIONS: KING'S ORIGINAL CONNECTOR FOR GOLF, IRRIGATION, LIGHTING, AND PUMPS

WE SEAL THE WIRES FIRST!

FEATURES AND BENEFITS

A Color Coded Housing

Traditional electrical connector colors for quick identification.

B Square Wire Spring

Lubricated square wire spring draws wires deeper for a long-term, enhanced splice. No pre-twisting necessary for easy installation.

C Direct Bury Housing

High-impact polymer withstands greater compression. Thick wall ergonomic design will not slip in your hand.

D Safety Sealant™

Prefilled white safety sealant never hardens while handling temperature extremes. Dielectric sealant locks out moisture and corrosion.

CODE/LISTINGS AND MARKS

- Listed for direct burial according to UL 486D test standard and are CSA C22-2 #198.2 certified.
- Splices can be used with or without junction box, and/or in metallic wireway as specified by articles 110-14(b), 300-5(e), and 305-4(g) of the NEC.

Manufactured under US Patent #B1 5, 113, 037

KING SAFETY SEALED PROLINE CONNECTOR SPEC SHEET

CATALOG #	SELLING UNIT	SPECIFICATIONS	100
10100	Card of 8	Max Voltage: 300V	
10111	Bag of 20	Size: 15/16" x 1/2"	
		Max Temp Rating: 167 F/ 75 C	
		Sealant Temp: -45" F to 400 F	
		Wire Combinations: Copper/Copper	
		Wire Size: Min 3 #22 / Max 2 #16	WIRE STRIP LENGTH: 1/2"
KING 2	- BITTE PROTINE WATERPRO	OF/UNDERGROUND PRESSURE TYPE CONNECTOR - DIRECT BURY*	
	SELLING UNIT	SPECIFICATIONS	
10200	Card of 8	Max Voltage: 300V	
10222	Bag of 20	Size: 1-1/8" x 9/16"	
	buy of 20	Max Temp Rating: 167° F/ 75° C	
		Sealant Temp: -45° F to 400° F	
		Wire Combinations: Copper/Copper	
		Wire Size: Min 3 #20 / Max 3 #16	WIRE STRIP LENGTH: 1/2"
		PROOF/UNDERGROUND PRESSURE TYPE CONNECTOR - DIRECT BURY*	
	SELLING UNIT	SPECIFICATIONS	
10300	Card of 6	Max Voltage: 600-1000V	
10333	Bag of 15	Size: 1-15/16" x 9/16"	
		Max Temp Rating: 167° F/ 75° C	
		Sealant Temp: -45° F to 400° F	
		Wire Combinations: Copper/Copper	
		Wire Size: Min 3 #20 / Max 2 #14 &1 #18	WIRE STRIP LENGTH: 1/2"
