# MODEL 331

## Portable Transfer Pump

### APPLICATIONS:

The Model 331 by Liberty is a convenient, easy-to-use portable transfer pump for moving water from one location to another. Typical applications include general water transfer, pool cover drainage, filling livestock tanks and draining water heaters. The 331 delivers up to 40 lbs. of pressure and has a maximum head of 105'. Maximum vertical suction lift is 15'.

### FEATURES:

- One-piece cast aluminum pump and motor housing with integral carry handle
- Durable epoxy powder coat finish
- 20' power cord
- Convenient On/Off switch
- 3/4" brass garden hose connectors
- Glass reinforced thermoplastic impeller
- Permanently lubricated ball bearings
- Large prime plug with internal funnel design for easy priming
- Easily replaced motor brushes
- Maximum discharge head of 105'
- Maximum suction lift of 15'

### MOTOR SPECIFICATIONS:

½ hp   115 volt   8 amps   60 Hz.   7500 RPM

Thermally protected

**Maximum fluid temperature 135° F**

**Height: 7"   Width: 4½"   Length: 9¾"   Weight: 10½ lbs.**

### MODEL 331 PERFORMANCE

**NOTE:** The model 331 is not intended for use in wet or damp areas. Motor is not submersible. Not intended to pump chemicals or flammable liquids. Motor brushes require replacement approximately every 300 hours of use.

Specifications are subject to change without notice.
