## PURPLE RECLAIMED

PWPurple Plus® is available in a variety of sizes and coupling options. Consult chart above.

In response to the environmental concerns each of us shares, PWPurple Plus® is manufactured to meet the growing use of water reclaimed from wastewater systems.

Currently, reclaimed water fulfills a variety of irrigating needs from golf courses to parks and traffic medians throughout the US. PWPurple Plus® is an ideal product to help meet the challenges created by diminishing water supplies.

## The Pluses of PWPurple Plus®

In addition to being an effective color-coded indicator of dedicated pipe, PWPurple Plus® provides the proven performance of PVC.

- Superior resistance to corrosion and chemicals.
- Immunity to electrolysis.
- Faster installation resulting in reduced labor costs.
- Low maintenance.
- Exceptional strength and durability.
- Superior hydraulics.
- Conformance to all applicable national standards.

PWPurple Plus® has the distinction of being a product specifically designed to meet new market demands, while offering the time-tested physical benefits of PVC.

PWPipe's rigorous quality-control standards ensure that PWPurple Plus® meets or exceeds industry specifications.
