

2045-PJ Maxi-Bird™

Full- or Part-Circle Impact Sprinkler

Primary Applications:

1/2" (15/21) riser-mounted impact head used for slope and large-area, above-grade applications.

Features and Benefits:

- Proven impact drive.
- Double-weighted arm for slower rotation and increased distance of throw.
- Straight-through flow for superior performance in dirty water.
- Adjustable arm spring for low-pressure and low-gallonage operation.
- Precision Jet tube (PJ™) minimizes side splash.
- 5 Matched Precipitation Rate (MPR) nozzles and 2 low-angle (LA) nozzles.
- Interchangeable, color-coded bayonet mount nozzles.
- No tools required to change nozzles.
- FP trip permits full- or part-circle operation (20° to 340°)
- Powerful reverse action.
