

LPD Low Profile Centrifugal Roof/Sidewall Exhausters RED Centrifugal Roof Exhausters

Direct Drive

Catalog LPD/RED01-January 2007

The World's Leading Producer of
Air Movement Products

Soler & Palau USA, Div. of Soler & Palau Ventilation Group, certifies that the Models LPD & RED shown herein are licensed to bear the AMCA Seal. The ratings shown are based on test and procedures performed in accordance with AMCA Publication 211 and AMCA Publication 311 and comply with the requirement of the AMCA Certified Ratings Program.

Soler&Palau
Ventilation Group

COMMERCIAL PRODUCT LINE

Model LPD Low Profile Direct Drive Centrifugal Roof/Sidewall Exhausters

Features

- Ultra Low Profile
- AMCA Air & Sound Licensed
- cULus Listed-Standard 705 (optional)
- UPS Shipping Carton
- 5 Year Housing Warranty
- Up To 140°F Airstream Temperature
- Roof or Sidewall Mount

Construction

- Aluminum Construction
- Stainless Steel Exterior Fasteners
- Backward Curved Centrifugal Wheel
- Aluminum Birdscreen
- Conduit Wiring Chase
- Service Disconnect Switch
- Precision Balanced to ISO Standard 1940

Motor

- Unique External Rotor Design
- Permanently Lubricated Bearings
- 3 Year Motor Warranty
- Internal Thermal Protection
- 100% Speed Controllable
- 115V, 230V and 60/50 Motor Options
- Totally Enclosed and Continuous Duty

Performance certified is for installation type A-free inlet, free outlet.
Performance ratings include the effects of birdscreen in the airstream.
The sound ratings shown are loudness values in fan sones @ 5' (1.5m) in a hemispherical free field calculated per AMCA Standard 301. Values shown are for installation Type A-free inlet fan sones levels.
Speed (RPM) shown is nominal. Performance is based on actual speed of test.

Soler & Palau USA, Div. of Soler & Palau Ventilation Group, certifies that the Models LPD shown herein are licensed to bear the AMCA Seal. The ratings shown are based on test and procedures performed in accordance with AMCA Publication 211 and AMCA Publication 311 and comply with the requirement of the AMCA Certified Ratings Program.

S&P patented motorized impellers typically exceed manufacturer's RPM ratings as shown in the AMCA certified performance table above. Motor manufacturer's published ratings are:

LPD06A60: 115/1/60/TE, 2600 RPM
LPD06C60: 230/1/60/TE, 2600 RPM
LPD06C50: 230/1/50/TE, 2500 RPM

LPD08A60: 115/1/60/TE, 3050 RPM
LPD08C60: 230/1/60/TE, 3050 RPM
LPD08C50: 230/1/50/TE, 2700 RPM

Application

Model RED direct drive units are roof mounted centrifugal exhausters rated from 46 to over 3000 CFM, with static pressure capabilities to 1 inch. They are used to exhaust air from all types of commercial and institutional buildings such as hospitals and health care facilities, schools, recreational buildings, machinery and equipment rooms, offices, retail stores and similar applications.

The nonoverloading backward inclined wheel with its higher static pressure capability makes this unit suitable for either ducted or nonducted applications. Its roof mounting permits location near the area to be ventilated, allowing short duct runs and more efficient operation.

The spun aluminum exterior provides an attractive appearance and is compatible with belt driven Model DB and companion gravity units to make up a complete ventilation system. Direct drive units use smaller diameter wheels with lower rpm's, resulting in low sound levels and quiet operation. They have no belts or fan bearings to maintain or adjust and consequently require very little maintenance.

Construction/Specification Checklist

Housing

- Curb cap has integral deep spun inlet for efficient performance and prepunched mounting holes for ease of installation.
- Fan plate isolates motor compartment from contaminated exhaust air.
- Spun aluminum hood and skirt for weather protection and attractive appearance.
- Heavy-gauge motor support for rigidity and strength.
- Neoprene isolators for reduction of vibration and sound.
- Quick access to motor compartment for ease of maintenance.
- Conduit passage for easy electrical connection from below roof.
- Birdscreen and disconnect are included on standard models; (excluding explosion proof and 2-speed motors).

Wheel

- Backward inclined for efficiency at higher static pressure.
- Nonoverloading for safe operation in ducted systems.
- Tapered blades for efficiency and quiet operation.
- Wheels constructed of noncorrosive aluminum.
- Statically and dynamically balanced for smooth operation.

Speed Controllable Motors

- Brands are nationally recognized and locally serviced.
- Standard motors are single speed, speed controllable and drip-proof.
- All motors are rated for continuous duty.
- Disconnect is standard with single speed drip-proof motors.
- Motors ship mounted as standard.

AMCA Seal

- Assures rating of Air and Sound performance.

UL Label

- UL 705 Listing assures electrical reliability.
- UL 705 must be specified when required.

Options/Accessories

Solid State Speed Control: Soler & Palau's solid state control is matched to the motor and blower wheel to allow continuous reduction in performance allowing adjustments of airflow for system balancing. CFM is reduced in direct proportion to motor speed reduction. Speed control is available for 115 or 230 volt single phase. Exhauster performance can be controlled from the ventilated area.

Roof Curb: Prefabricated heavy-gauge galvanized steel welded construction, 12" high with 1-1/2" wood nailer. Assures perfect fit of exhauster to roof curb. Options include burglar bars, single and double pitch construction, and additional curb heights.

Sound Curb: Option of thermal acoustical lining or a complete maximum sound attenuating baffle system. Provision for mounting damper is available. Contact factory for information regarding effect on exhauster air performance and sound level.

Motor Operated Aluminum Damper: Motor operated for positive closure against backdraft.

Automatic Damper: Automatic aluminum damper for ease in installation and effective backdraft protection.

Companion Gravity Units: Model RCX-II comes in a wide range of sizes and air capacities to provide relief or intake air to the system. Curbs and dampers are available to fit all sizes. Spun aluminum hoods provide a pleasing appearance, complementing the Model RED exhauster.

Curb Hinge Arrangement: The curb hinge arrangement provides easy access to the exhaust fan, backdraft damper, and duct for servicing and cleaning.

Special Coatings: Powered roof exhausters often require special coatings for protective and decorative purposes. Available coatings include: Epoxy, Eisenheiss, and Heresite (air-dried phenolic). Contact your Soler & Palau USA representative or the factory for more information on available coatings and colors.

Quickship Program

All RED Models and many optional accessories are available on the Soler & Palau USA Quickship Program. This program provides rapid delivery of standard products so that tight project deadlines can be met and downtime on replacement work can be held to a minimum.

All specifications are subject to change without notice unless approved in submittal by Soler & Palau USA.

MODEL RED

Typical Specifications

Roof exhaust fan shall be of the centrifugal direct drive type. Unit shall be constructed of aluminum for durability and appearance. Fan skirts shall have a rolled bead edge for rigidity. Units shall have a deep venturi inlet to prevent against snow and rain entry into building.

Fan wheels shall be of the centrifugal backward inclined type, constructed of aluminum and containing a matching inlet venturi for optimum unit performance. Wheels shall be statically and dynamically balanced.

Motor assembly shall be isolated from unit to eliminate vibration and noise transmission. Motor and wheel assemblies shall be removable as a complete module without complete disassembly of the unit for service and maintenance. Motors shall be mounted out of the exhaust airstream and cooled by

air separate from the exhaust. Motors for use with speed control shall be closely matched to the fan load and provide good speed controllability without any objectionable noise. Motor shall contain thermal overload protection and be listed by UL.

A disconnect switch and birdscreen will be included. A conduit chase shall be provided through the curb cap to the motor compartment.

Fans shall bear the AMCA ratings seal for Sound and Air performance. Fans shall carry the UL listing mark. Fans shall bear a permanently attached nameplate displaying model and serial number of unit for future identification.

Fans shall be Model RED as manufactured by Soler & Palau USA, Jacksonville, Florida.

SOLER & PALAU USA LIMITED WARRANTY

Soler & Palau USA (manufacturer), 6393 Powers Avenue, Jacksonville, Florida 32217, warrants equipment of its manufacture to be free from defects in design, materials and workmanship (exclusive of abrasion, corrosion or erosion) for five (5) years from the date of receipt or the date of shipment to the original purchaser or the date of notification of readiness to ship. Motor warranty is one (1) year. In order to claim the benefit of this warranty, buyer must notify manufacturer in writing of the claimed defect within ten (10) days after discovering it and return this equipment or parts to the factory with transportation prepaid. In the event of on-site repair, no service technician will be dispatched until manufacturer receives your written purchase order. If any of the following conditions exist, the warranty will be null and void: (1) Buyer has permitted other persons not approved or authorized by manufacturer to alter, adjust, replace or repair the equipment or any part thereof. (2) Buyer has not followed instructions or other directions given in the contract documents or our maintenance manual. (3) When breakage or other loss or damage is the result of any negligence, misuse or fault on the part of any operator or other person not under our supervision or control. (4) The defect is the result of designs or drawings made, furnished or specified by others. (5) In the case of goods not manufactured but supplied by the manufacturer as part of a contract, manufacturer shall only be liable to the same extent that our supplier is to manufacturer; not to exceed any liability manufacturer would have for warranty on our own equipment. (6) Buyer has not paid in full any invoices submitted to buyer which are due for payment. (7) Unusual wear and tear of the equipment. Statements relating to the product, its use or installation made prior to the execution of the agreement, are not warranties except to the extent that the contrary is expressly set forth herein. It is understood that such statements were not intended to, and did not, form a part of the agreement; they were merely made in the course of negotiations of the parties. **THIS WARRANTY IS IN LIEU OF ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. OUR SOLE AND EXCLUSIVE OBLIGATION UNDER THIS WARRANTY IS TO REPAIR OR REPLACE DEFECTIVE EQUIPMENT OR PARTS OR, AT OUR OPTION, TO PAY THE REASONABLE COST OF REPAIR OR REPLACEMENT. BUYER AGREES THAT NO OTHER REMEDY (INCLUDING, BUT NOT LIMITED TO, INCIDENTAL OR CONSEQUENTIAL DAMAGES, DAMAGES FOR LOST PROFITS OR SALES, OR DAMAGES FOR INJURIES TO PERSON OR PROPERTY) SHALL BE AVAILABLE. NOTWITHSTANDING THE ABOVE, THE TOTAL AMOUNT THAT MAY IN ANY EVENT BE PAYABLE IN SETTLEMENT OF LIABILITY, HOWEVER INCURRED, SHALL NOT EXCEED THE CONTRACT PRICE.**

(I) Models with S in the number require speed control.
Performance certified is for installation type A-free inlet, free outlet.
Performance ratings include the effects of birdscreen in the airstream.
The sound ratings shown are loudness values in fan sones @ 5' (1.5m) in a hemispherical free field calculated per AMCA Standard 301. Values shown are for Installation Type A-free inlet fan sone levels.

* Base Unit-AMCA Seal for Sound Rating does not apply to units with speed control.
+ RPM range capable with solid state speed control.

Speed (RPM) shown is nominal. Performance is based on actual speed of test.

Soler & Palau USA, Div. of Soler & Palau Ventilation Group, certifies that the Models RED shown herein are licensed to bear the AMCA Seal. The ratings shown are based on test and procedures performed in accordance with AMCA Publication 211 and AMCA Publication 311 and comply with the requirement of the AMCA Certified Ratings Program.

**LISTED POWER
ROOF VENTILATOR
UL STANDARD 705**

Additional Products

Soler & Palau USA manufactures a complete line of gravity ventilators and fans for all your ventilation requirements.

MODEL DB

Backward Inclined
Belt Drive
Centrifugal Roof Exhaust

MODEL RED

Backward Inclined
Direct Drive
Centrifugal Roof Exhaust

MODEL SQB/SQD

Backward Inclined
Belt Drive/Direct Drive
Square Inline

MODEL UBB/UBX/UBS

Propeller
Belt and Direct Drive
Upblast Roof Exhaust

MODEL L

Propeller
Belt Drive
Sidewall Exhaust or Supply

MODEL BGH

Gravity Hood
Intake or Relief

MODEL KSF

Forward Curved Blower
Belt Drive
Filtered Roof Supply

MODEL TXB/TXD

Backward Inclined
Belt Drive/Direct Drive
Centrifugal Upblast

MODEL BVS

Backward Inclined
Belt Drive
Centrifugal Utility Set
