

ASME Tangential Air Separators

Features:

- n ASME Constructed and stamped
- n 125 PSIG design pressure
- n 375°F maximum operating temperature
- n Carbon steel construction
- n Tangential design results in small unit
- n Provides air free fluid flow which protects against damage and system noise
- n Helps prevent waterlogged compression tanks
- n Stainless steel strainer

- n 2" and 2 1/2" Pipe sizes are NPT
- n 3" and larger pipe sizes are flanged
- n 2" and 2 1/2" strainer access is Pipe Cap
- n Grooved inlet and outlet connections are available on all sizes

Options:

- n Higher ASME working pressures available
- n Larger sizes through 36"
- n Special materials of construction ASME available
- n Grooved connections available

Separator with Strainer

Separator without Strainer
