WILO Z-15

Residential Hot Water Recirculation Pumps

The new WILO Star Z-15 provides maximum convenience, ensuring that hot water is available immediately at the turn of a tap. Featuring NSF approved, lead-free bronze, easy installation, low energy consumption, the Z-15 is the pump of choice for secondary hot water circulation systems, and similar types of building service systems. Practical? We call it *Pumpen Intelligenz*.

WILO Z-15
